

Product Data Sheet

F30 Coating System

KH-Metallic Primer -Z-Containing Zinc Phosphate

Product and Material Description:

This product is the first primer coat on carbon steel in fire protection areas. E.g. for the Hensel or BC-Brandchemie company products.

The fire resistance class is + 30 AB.

Valid registration as well as information for further tested primer coats available on request.

Density: 1,363

VOC (volatile organic compounds) **(g/l):** 434

DFT (Dry Layer Thickness) **(µm):** 80

Coverage each m² (theor.): 3.0 kg / 4.2 l

Colour Shade: red brown (8130)

Thinners: 0069-00070 improves flow
0089- 00580 supports drying process

Container Size: 33 kg

Article-Number: 0061-8130
