

Product Data Sheet

NewPro NewPro LABEL REMOVER P (for paper)

„**NEWPRO LABEL REMOVER P**“ is intended for the easy detaching of paper stickers as well as glue residues.

„**NEWPRO LABEL REMOVER P**“ is suitable for the removal of:

- product labels (on bottles and containers etc.)
- price labels
- parcel labels (on traffic signs, trams etc.)
- label residues and glue residues

„**NEWPRO LABEL REMOVER P**“ offers an instant and powerful reaction, does not affect the treated

surface and is very economic to use.

„**NEWPRO LABEL REMOVER P**“ is intended for industrial use and may be stored up to 36 months from the date of production (see label).

„**NEWPRO LABEL REMOVER P**“ is suitable for following surfaces:

metal, glass, ceramics, wood and many different plastic surfaces.

When the product is used on transparent plastic surfaces or varnished metal surfaces please test the material compatibility in an inconspicuous area.

„**NEWPRO LABEL REMOVER P**“ has a shelf-life of not less than 2 years from the date of delivery. However, a storage beyond this point does not necessarily mean that the product is unusable.

Application:

Apply „NewPro LABEL REMOVER P“ onto the label to be removed.

Application time 1-7 minutes

Peel the label off.

Finally wipe the surface again with a cloth and water.

If „NewPro LABEL REMOVER P“ dries up during the cleaning process simply apply again.

If Necessary remove glue residues with cloth soaked with „NewPro LABEL REMOVER P“.

Best working temperature range: 5-35°C

Tip:

Smooth facades, walls and mineral surfaces can be protected from paint vandalism and resulting damages with „Graffiti Magic“- protection layer sufficiently!

Important notes:

Store in original container only! Please test the material compatibility of the product in an inconspicuous area. Due to the multitude of different materials incompatibilities can not completely be eliminated.

If due to temperature deviations from the working temperature range a separation of the product takes place, temper product back to working temperature range and stir vigorously.

Due to the use of natural ingredients slight differences in color may appear. Please follow the instructions in the material safety data sheet for proper use, storage and disposal!

The data of the product data sheet are up to date. All data are subject to change in the future without prior notice.
