

## Product Data Sheet

### NewPro Front Cleaner Plus

#### Product Description

NewPro Front Cleaner is a liquid surface-active front /facade cleaner with disinfectant active components and pure alcohol as well as fat and oil dissolving agents.

NewPro front cleaner Plus is effective against fat, lime, rust, algae, iron, manganese, soot, urine scale. NewPro Front Cleaner Plus is biodegradable.

NewPro Front Cleaner Plus works bactericidal and fungicidal, finishing off bacteria and fungus in a short time. The longer the reaction time, the better the crust will be removed.

#### Composite

NewPro Front Cleaner Plus is a concentrate containing anorganic acids, nonionic and cationic tensides.

#### Application Area

NewPro Front Cleaner Plus is used for basic and maintenance cleaning of fronts, concrete, plaster, washed-out concrete, brick, quarystone etc, as well as in industry, trade and schools. NewPro Front Cleaner Plus removes residue and soiling easily from stone, plastics, wooden grids, windows, glass roofs etc.

#### Application

NewPro Front Cleaner Plus concentrate must always be diluted with water. Depending on the age and degree of residue or soiling, the dilution ratio is between 1:1 and 1:50, using a high-pressure sprayer, pressure pump sprayer, rubber mop, sponge, high pressure cleaner, reaction time between 1 and 10 minutes. Rinse off well with water.

Light alloy as well as chrome-plated and zinc coated parts must be treated with a dilution ratio of 1:20 and a reaction time of 3 minutes.

#### Packaging size

- 1000 ml bottle
- 10 kg container
- 30 kg container
