

Product Data Sheet

active.steel® Standard Box

active.steel® Standard Box

active.steel® Standard Box

Description

active.steel®: Active protection of matt stainless steel surfaces:

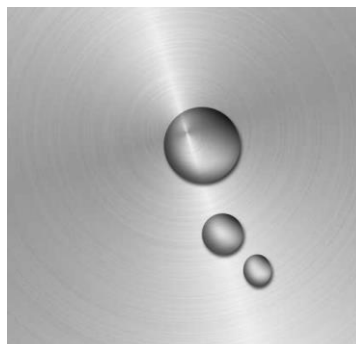

- Significantly reduces fingerprints
- Easy-to-Clean effect
- Anti-Stain properties
- Easy to apply

A perfect chemical bounding of the coating material and the surface make the material long lasting. An ultra thin, transparent layer gives you a low consumption of material, combined with great Anti-Fingerprint effect.
