

Product Data Sheet

Single-Component Top Coat, Metallic

NewPro LUX F EG Single Component Top Coat, Metallic

Product and Material Description:

A long-oiled alkyd resin coating for a second or further top-coat, according to Sheet 72 of the old directives.

For single component paint structures in heavy duty corrosion protection.

Available from 2 x 30 kg each colour shade and delivery.

Other colour shades on request, resp. according to the colour shade chart, please see also:

www.g-pro.com

Colour deviations are possible according to the pigmentation in the binding material and the type of application!

To achieve a more even result, the product is intended for spraying application only!

Density: 1.390 g/cm³

VOC (volatile organic compounds) (g/l): 396

DFT (Dry Layer Thickness) (µm): 80

Coverage each m² (theor.): 4.5 kg / 6.3 l

Colour Shade: DB 701 (70601) (DB=German Railways?)
DB 703 (70603)

Thinners: 0069-00070 improves flow

Container Size: 10 Litres
30 kg

Article-Number: 3015-x06xx

NewPro FLEX VG Metallic

Product and Material Description:

Special coating material based on a PVC combination basis for various metallic surfaces.

Thermoplastic from approx. >65%. ALU-free colour shades e.g. DB 703, can also be processed after sweeping, in one coat to galvanised under surfaces.

Other colour shades on request resp. according to the colour shade chart, please see also:

"www.g-pro.com"

Minimum Order Quantity 3 x 30 kg each colour and delivery!

Colour deviations are possible according to the pigmentation in the binding material and the type of application!

To achieve a more even result, the product is intended for spraying application only!

Density:	1.270 g/cm ³
VOC (volatile organic compounds) (g/l):	550
DFT (Dry Layer Thickness) (µm):	80
Coverage each m² (theor.):	3.7 kg / 4.8l
Colour Shade:	DB 701 (70601) DB 703 (70603)
Thinners:	0089-09200
Container Size:	30 kg
Article-Number:	3033-x06xx
